

## **Instructor, Richard Lloyd**

Richard Lloyd is a CCE (Certified Computer Examiner) which was received after courses with Kennesaw State University and Investigating Computer Crime & Misuse in the UK.

Richard Lloyd started with a computer-programming course in 1978 and has worked in various capacities in the computing sphere since. The majority of the time involved in managing/administering various systems and networks. Over this span, he has worked with a wide range of computer systems both in the commercial & technology environments. His experience covers working in Europe, the Middle East and the Far East, part of which has included high security military installations.

He founded CYFE-X (Cyber Forensic Examinations of Systems) and currently engages in computer forensic examinations and investigating systems security issues in the South West of England.

Mr. Lloyd is a CISSP (Certified Information Systems Security Professional) and is a trained and certified CCE (Certified Computer Examiner). He holds numerous CompTIA, Cisco, Microsoft and Planet 3 Wireless qualifications.

He is an AFRSPSoc (Associate Fellow of Remote Sensing Photogrammetry Society.), is a member of (ISC)<sup>2</sup> and also a member of the BCS-ISSG (British Computer Society – Information System Security Group).
