

Instructor, Steven Wisenburg

Mr. Wisenburg is a 14-year veteran of the City of Atlanta Police Department. He has been a Detective since 1999, where he started investigations in the physical abuse and sexual abuse of children. These investigations lead to child porn investigations as well as other exploited children on the Internet investigation. He is now assigned to the Cybercrime Unit where he is a full time computer forensic examiner.

Mr. Wisenburg is the current president of the Atlanta Chapter of the High Technology Investigation Association (HTCIA). He holds the Certified Computer Examiner (CCE) certification. He also is one of the founding directors of the Cybercrime Summit, a training conference held in Metro Atlanta each year. Mr. Wisenburg has attended several training classes including the following:

Computer forensics Boot Camp, Practical Data Forensics using Linux, Access Data Forensic Boot Camp, EnCase Intermediate analysis and reporting, Basic Data Recovery and Analysis, Advanced Data recovery and analysis ILook, Maresware Software Training, etc.
